

Scenario:

You are ordering security equipment on behalf of your college campus. You want to buy iris scanners, and you must also register an account with TG Security. You are ordering iris scanners to ease the method of accessing faculty buildings on campus.

Task 1: Add an iris scanner to your shopping cart.

Task 2: Create a TG Security account.

Task 3: Register for CampusTGS and check out.

Notes

What changes you should make to your application (min 3 Things):

1. After selecting a college for CampusTGS, have a button that brings you back to the shopping cart.
2. Bulk purchasing option for CampusTGS purchases.
3. Add "quick checkout" option for single product purchasing.

What you need to keep the same for your application (min 3 Things):

1. Keep the home menu layout the same.
2. Keep the account sign-in interface the same.
3. Keep the CampusTGS shortcut for creating an account the same.
